

# XTIRPA™

HERE'S WHAT YOU WERE WAITING FOR:

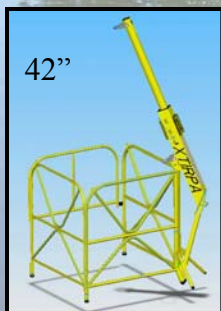

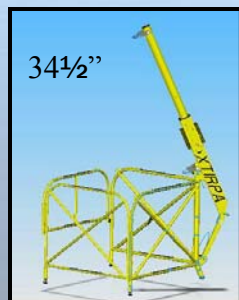

# Innova tion

## FEATURES AND BENEFITS OF THE XTIRPA SYSTEM

- **Innovative design** - The only two piece system on the market that will allow you to install a davit arm on a manhole guard for rescue purposes.
- **Lightweight** - Manhole guard 23 lbs, davit arm 23 lbs, mast 22 lbs, using an aluminium composite (Duralcan®) the system has a maximum capacity of 420 lbs.
- **Ergonomic design** - The two piece system can be easily transported and installed by one person. Set up is safe, quick and easy, within 3 minutes for one person alone.
- **More versatile** - Multiple use system, using different combinations of components, the universal XTIRPA™ system will allow you to secure most of your confined space.
- **Easy storage** - No vehicle modifications required, very compact unit.
- **Cost effective** - Will save inventory cost due to its universality and also work compensation for back, shoulder and elbow injury.
- **Built to last** - The aluminium composite used to build the system is very corrosion resistant. It has been put to the test over the past 8 years by Hydro-Quebec.
- **Very competitive price.**
- **Higher rates of compliance to Safety regulations** - Due to its easy and quick installation, employers will have easier time to implant this unique safety system.
- Meets or exceeds applicable ANSI, OSHA and CSST

\* DURALCAN® is a registered trademark of Alcan Inc.
